

Chad Cargill's Test Prep

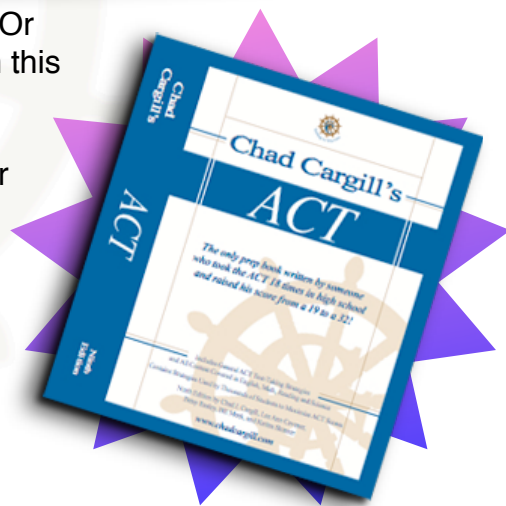

The only workshop given by someone who **took the ACT 18 times** in high school and raised his score from a **19** to a **32**.

Do you need a few extra points on your ACT to win certain scholarships? Or maybe you are a few points away from qualifying to get into college. Then this workshop is for you!

- Last year over 10,000 high school students attended the workshop!
- Packed full of relevant, practical information on how to **increase** your ACT score
- Shows you how the ACT is **beatable**
- Each test will ask you the **same questions** just worded differently

The workshop covers what will be on the test and how to master the techniques; this is not a practice test. It covers general ideas about the ACT as a whole and the individual sections of:

- **English** - Learn what the test-makers are looking for & the relevant rules needed.
- **Math** - Learn formulas & rules you need to answer virtually every question.
- **Reading** - Learn three strategies and three methods how to best take the comprehension section
- **Science** - Learn common question types and strategies to beat science reasoning

ACT Prep Book \$20
tax included

Chad Cargill, founder and president of Cargill Consulting®, developed this workshop after taking the ACT 18 times and increasing his score from a **19** to a **32**. He attended Oklahoma State and graduated with a degree in Industrial Engineering.

TI-83 Plus - \$120 (tax and programming included)
TI-84 Plus Silver Edition - \$150 (tax and programming included)
Already have one? - \$15 to program

Is math the section giving you the most trouble? Or maybe you are good in math, but would like something to make it even faster and easier. A pre-programmed calculator is your answer!

These calculators are brand new, with one exception:

They are pre-programmed with all the formulas and solvers you need to succeed on the act.
